## Security Assessment Program

The Crime Prevention Division of the Madera Police Department wants to help make your business a safer place for you, your employees, and your customers. To do so, they are now offering a free security assessment of your business. The goal in offering this new program is to work with the Madera Chamber of Commerce and the business community to increase security and eliminate opportunities for criminal activity that could affect your business. The Madera Police Department wants to assist you in your security needs as well as to help Madera continue to be a great place to do business.

To request a security assessment at your place of business, simply fill out and submit the following form. Once received, a Crime Prevention Officer will contact you to schedule an appointment. There are no fees charged for the inspection. Upon completion of the physical assessment of your business you will receive a written evaluation and recommendations for improvement to better protect your establishment. This report should be sent to you within ten (10) working days from the date of your inspection. As noted, there is no cost for the assessment and written evaluation. You are, however, encouraged to invest in making any recommended changes and/or improvements for your safety as recommended in your written report.
